

CITO-SYSTEM GmbH
Haimendorfer Straße 37+46
90571 Schwaig bei Nürnberg

DECLARATION OF CONFORMITY
For ejection material to manufacture folding carton packaging
for food (food contact materials)

We herewith declare that our product:

CITObject V in all forms of delivery

that are used according to their intended purpose to manufacture cutting dies for food packaging, have been manufactured in accordance with good manufacturing practice so that they comply with sections 3 and 17 of the statutory regulations of the Directive (EC) No. 1935/2004 for food contact materials.

Tests of the composition of our products as well as the emission of their constituents show that if used correctly for their intended purpose, no negative impact on the food stored in the packaging using the named product is to be assumed, as far as our products are concerned.

It is the responsibility of the packaging manufacturer to ensure the technical suitability and use of the products within the scope of the manufacturing process for the food packaging pursuant to Directive (EC) 2023/2006 of the Commission from 22 December 2006 on good manufacturing practice for materials and objects that are intended to come into contact with foods.
